

AMENDED
APPLICATION FOR PERMIT

Nº 50701

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... MAR 19 1987
Returned to applicant for correction..... MAY 4 1987
Corrected application filed..... JUL 7 1987
Map filed..... JUL 21 1987

The applicant..... Gary Primm, c/o Whiskey Pete's Casino

P.O. Box 56

Street and No. or P.O. Box No.

of Jean,

City or Town

Nevada 89019

State and Zip Code No.

....., hereby make..... application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is..... from an underground source
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is..... one (1)..... second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet..... quasi-municipal purposes
3. The water to be used for.....
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated..... some of the water will be used for landscape irrigation around the casinos, etc.
 - (b) Stockwater, state number and kinds of animals to be watered.....
 - (c) Other use (describe fully under "No. 12. Remarks").....
 - (d) Power:
 - (1) Horsepower developed.....
 - (2) Point of return of water to stream.....
5. The water is to be diverted from its source at the following point..... located in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$
Describe as being within a 40-acre subdivision of public
Section 10, Township 27 South, Range 59 East M.D.B.M., bearing N02°32'23"W a
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
distance of 2231.79 feet to the North $\frac{1}{4}$ Corner of said Section 10.
6. Place of use..... The East one-half (E $\frac{1}{2}$), the Southeast One-quarter (SE $\frac{1}{4}$) of the Northwest
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
one-quarter (NW $\frac{1}{4}$), the Northeast one-quarter (NE $\frac{1}{4}$) of the Southwest one-quarter (SW $\frac{1}{4}$), and that portion in the State of Nevada of the Southeast one-quarter (SE $\frac{1}{4}$) of the Southwest one-quarter (SW $\frac{1}{4}$) of Section 8. Together with the Northwest one-quarter (NW $\frac{1}{4}$) and the West one-half (W $\frac{1}{2}$) of the Northeast one-quarter (NE $\frac{1}{4}$) of Section 9. Said sections in Township 27 South, Range 59 East, M.D.B. & M.
7. Use will begin about..... January 1..... and end about..... December 31....., of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Drill well, install pumps, pipelines,
State manner in which water is to be diverted, i.e. diversion structure, ditches and storage tanks, valves, fittings and appurtenances.
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works..... \$2000,000.00

10. Estimated time required to construct works 3 months
 If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use 1 year

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water place to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 104.93 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before March 29, 1989

Proof of completion of work shall be filed on or before April 29, 1989

Application of water to beneficial use shall be made on or before March 29, 1992

Proof of the application of water to beneficial use shall be filed on or before April 29, 1992

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed IN TESTIMONY WHEREOF, I, PETER G. MORROS
State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed my office, this 8th day of December

Peter G. Morros
 State Engineer

Abrogated By 10845-1.0

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total combined duty of water under Permits 50701, 50808, 51870, 51871, 51872, 51873, 52087 and 52088 shall not exceed 177.92 million gallons annually.

The use of this well site shall cease upon the completion of the well sites authorized under Permits 51870 and 51871.

The permittee shall submit a monitoring plan to show any impact resulting from an increase in groundwater pumping. Upon approval by the State Engineer of such a plan, data will be submitted to the State Engineer on a monthly basis.

Upon further groundwater development a report shall be submitted to the State Engineer to identify the amount of water recharged through the proposed rapid infiltration basins into the groundwater system. Upon review of that data by the State Engineer, the amount of water credited by the recharge program will be determined. The maximum amount to be credited will not exceed 90 percent of the amount recharged.

The total annual withdrawal of water under Permits 50701, 50808, 51870, 51871, 51872, 51873, 52087 and 52088 is initially limited to 177.92 million gallons annually. The total annual withdrawal of water under Permits 50701, 50808, 51870, 51871, 51872, 51873, 52087 and 52088 may be raised in stages up to a maximum of 177.92 million gallons annually in addition to the amount credited for recharge, as approved and authorized by the State Engineer, only after the State Engineer has determined the amount to be credited by the recharge program.

The State Engineer does not waive any authority to require the permittee to comply with the provisions of NRS 534.010 and 534.250 through 534.340, inclusive.
